A Induction

B.Premises

**C.Logic**

D.Proposition

174) Research classification according to form is not which of the following

A. Historical B. Descriptive

C. Experimental **D. Social**

175) Primary source of data exclude which of the following

A.Research finding

B.Journals

C.Magazine

**D.Expert opinion in lecture**

176) which of these is not an inferential statistics

**A. Chi square** B. Spearman

C. Skewers D. Simple Regression

177) Features of serials exclude the following A. They are published B. They have

ISSN

C. They come at intervals **D. They are only acted**

178) Which of the following library services helps the reader to identify and retrieve

documents in any desired field

- A. Lending
- B. Cataloguing**
- C. Referencing
- D. Bibliography

179) Criterion referenced evaluation is mostly concerned with

- A. Psychomotor domain
- B. Cognitive domain**
- C. Spiritual domain
- d. Affective domain

180) In the classroom management, the teacher should be

- A. Rigid
- B. Flexible**
- C. Simple
- D. Harsh

181) Stages of educational development was introduced by

- A. Aristotle
- B. Plato**
- C. Piaget
- D. Quintilianus

182) Which of the following type of education can take place anywhere?

- A. Prussian Education
- B. Formal
- C. Informal**
- D. Distance

183) The value of one 9th of 81 is

- A. 9**
- B. 81
- C. 19
- D. 90

184) Historically, earliest generation of computers worked through electronic valve called

- A. Vacuum Valve
- B. Value Valve
- C. Value tube
- D. Vacuum tube**

185) Inductive method of education introduced by Aristotle implies teaching from

- A. Particular to particular
- B. General to general
- C. General to particular
- D. Particular to general**

186) In Nigeria, formal education for special education dates back to

A. 1960s **B. 1950s** C. 1940s D. 1930s

8. Conflict theory is associated with the following (a) Abraham Maslow **(b) Karl Max**

**(c) Weber** (d) Fried

187) Which of these is not used for teaching the hearing impaired

A. toys **B. Braille paper**

C. Adjustable desk D. Sign Language

188) Principles of operant conditioning excludes the following

A. motivation

B. Behaviour modification

C. reinforcement

**D. cognition**

189) Organizations are classified as

A. Official & Unofficial

B. Structured & Unstructured

C. Formal & Non formal

**D. Formal & Informal.**

190) Characteristics of a good curriculum exclude the following

A. Appropriateness B. Flexibility

**C. Rigidity** D. Relevance

191) "Waah! today is my birthday", is a

A. Command B. Statement

**C. Exclamation** D. Question

192) The test type that needs a word or phrase to answer is referred to as

**A. Multiple Choice** B. Alternative response C. Short Answer D.

Matching game

193) The Nigerian basic education comprises of the

A. Three years primary and six years secondary

B. Six years primary and six years primary

**C. Six years primary and three years junior secondary** **D. Nine years primary and secondary**

194) The best instructional method in a child friendly school is

- (a) Drama
- (b) Play method
- (c) Child friendly method

**(d) Combination of methods**

195) Principles of educational technology are derived from

- (a) Educational theories alone

- (b) Technological theories

**(c) Philosophical & educational theories**

- (d) Psychological & educational theories

196) The natural reaction and drive of man and other things to interact with its environment

is

- (a) Assimilation

- (b) Acculturation

**(c) Adaptation**

- (d) Association

197) Interaction types that may exist in any room exclude

- (a) Teacher student

- (b) Student-student

- (c) Peer-peer

**(d) Teacher-teacher**

198) Curriculum planning is carried out by

- (a) Teachers (b) Specialist

**(c) Stake holders** (d) Subject experts

199) Early childhood illness can be caused by these except

- (a) Poor nutrition

- (b) Unhealthy environment

**(c) Poor school care**

- (d) poor health care

200) Challenges to research in special education exclude

- (a) culture and tradition

- (b) Negative attitudes

- (c) Ethical & personal issues

**(d) Availability of data**

201) The suitable method of teaching at the junior secondary school is

(a) Project method

(b) Play method

(c) Lecture method

**(d) Combined method**

202) 95 divide by 40 approximately is **A.2** B. 1 C. 4 D. 3

203) Which of the following can be used to teach the learning impaired

A. Paper

B. Hearing Kit

C. Biro **D. Tape recorder**

- a. Experimental study**
- b. Ex-post factor research
- c. Non-experimental research
- d. Historical research
- e. Survey study

**39.** Action research is one in which

- a. A detailed guide of how to solve a problem is provided
- b. Line of action for solving a problem is articulated**
- c. Observable actions are demonstrated by the sample
- d. Recommendations are made for solving a problem
- e. A theory is tested to demonstrate its | efficacy

**40.** The design in which a selected unit of a population is studied and the findings assumed to be the same for members of the population is known as

- a. descriptive survey**
- b. ethnographic design
- c. historical design
- d. qualitative design
- e. qualitative survey

**41.** Which of the following would least influence the choice of a research

topic in education?

- a. Education relevance
- b. Feasibility of the study
- c. Meeting graduation requirement**
- d. Personal competence of the investigator
- e. Research ability of the problem

**42.** Which of the following is a primary data?

- a. Questionnaire response**
- b. Textbooks content
- c. Newspaper report
- d. Journal article
- e. Mimeograph

**43.** Which of the following response formats is most suitable for quantitative analysis?

- a. Binary choice
- b. Close response
- c. Extended response**
- d. Likerttype
- e. Semantic differential

**44.** Measurement is often defined as

- a. The interpretation of test scores
- b. Manipulation of statistical process
- c. Qualification of behavioural traits
- d. Systematic approach to issues of education
- e. Systematic assignment of numbers to attributes**

**45.** The scale of measurement that uses numbers or signs for the identification of a group is

- a. Interval scale
- b. Ordinal scale

- c. Magnitude scale
- d. Ratio scale
- e. **Nominal scale**

**46.** Which characteristic feature of continuous assessment ensures that the date, time and nature of assessment to be conducted is scheduled?

- a. Descriptive
- b. Comprehensive
- c. Cumulative
- d. Guidance-oriented
- e. **Systematic**

**47.** The number located in the middle when all the number in a distribution are arranged in either ascending or descending order of magnitude is the

- a. Mean
- b. **Median**
- c. Mode
- d. Standard
- e. Variance

**48.** Which of the following is a psychological requirement for conducting a test?

- a. Comfortable furniture
- b. Light
- c. **Legible prints**
- d. Pleasant weather
- e. Ventilation

**49.** The statistic used in determining the signification of the difference

- between two sets of scores is
- a. Chi square test

- b. Man-whitey U test
- c. One-way analysis of variance
- d. Person correlation
- e. The 'T-test'.

**50.** Which of the following is a disadvantage of objective tests?

- a. Absence of bias in the scoring process
- b. Coverage of wide content area
- c. Discouragement of superficial study habit
- d. Prompt release of result
- e. Possibility of guessing correctly.

**51.** Which of the following best describes the element of counseling?

- a. Counselee, counselor, institution counseling
- b. Counselee, counselor, institution, problem
- c. Counselee, counselor, institution, interview
- d. Counselee, counselor, testing counseling

**52.** Which of the following is a professional characteristic of a counselor?

- a. Empathy
- b. Nonchalance
- c. Emotional
- d. Smartness
- e. Bravery

**53.** A counseling centre is best sited in

- a. A class room
- b. The administrative block
- c. An easily accessible block
- d. A hall
- e. A library

**54.** Career-day is best described as?

- a. Information service
- b. Placement service
- c. Referral service
- d. Promotion service

**55.** The counseling association of Nigeria was established in\_\_\_\_\_

- a. 1960
- b. 1968
- c. 1970
- d. 1976
- e. 1986

**56.** Client- centered counseling approach was pioneered by\_\_\_\_\_

- a. Albert Ellis
- b. C.G Bakare
- c. Carl Rogers
- d. Sigmund Freud
- e. Albert Bandora

**57.** The first stage in the counseling process is\_\_\_\_\_

- a. Appointment
- b. Referral
- c. Rapport
- d. Termination
- e. Interview

**58.** Which of the following is related to career choice measurement?

- a. Vocation interest inventory
- b. Student problem inventory
- c. Student habit inventory
- d. Adolescent development personality inventory
- e. Student inventory

**59.** Amnesia is the loss of \_\_\_\_?

- a. Sleep
- b. Vision
- c. Memory**
- d. Health
- e. Hearing

**60.** Operant conditioning is associated with \_\_\_\_\_

- a. Z.BThorndike
- b. B.F. Skinner**
- c. Ivan parlor Abraham
- d. Maslow Albert Bandura

**61.** Stimulus-response (S-R) is a concept found

- a. Operant conditioning
- b. Classical conditioning**
- c. Social conditioning
- d. Moral conditioning
- e. Mixed conditioning

**62.** Which of the following does not belong to Abraham Maslow's theory of motivation?.

- a. Self-esteem
- b. Survival**
- c. Belongingness
- d. Self-actualization
- e. Aggression

**63.** Which of the following is not a learning difficulty?

- a. Visual impairment
- b. Hearing impairment
- c. Epilepsy
- d. Speech disorder
- e. Truancy**

**64.** In the teaching and learning process, learners mostly remember what they

- a. See, read and hear
- b. Read, hear and write
- c. Hear, speak and feel
- d. Are told, hear and copy
- e. Write, hear and say

**65.** The Suleja Academy is a school for the

- a. Blind
- b. Gifted
- c. Deaf
- d. Dumb
- e. Lame

**66.** THE four elements of language are

- a. Listening, speaking, reading and writing
- b. Listening, speaking, learning and writing
- c. Seeing, speaking, learning and writing
- d. Seeing, speaking, learning and writing
- e. Learning, listening, speaking and seeing
- f. Listening, speaking, writing and learning

**67.** Parts of speech in grammar include

- a. Narrative, inferences, adjectives and preposition
- b. Nouns, pronouns, narrative and outlining
- c. Nouns, adverbs, adjectives and preposition
- d. Nouns, inferences, outlining and pronouns
- e. Narrative, adverbs, adjectives and inferences

**68.** THE techniques used to improve reading reading in the classroom

include

- a. Pleasure and creative reading

- b. Pleasure and memorization
- c. Creative and silent reading
- d. Creative and memorization
- e. Reciting and chorus reading

**69.** The most appropriate place to confirm the availability of a book in a library is ?

- a. Reference section**
- b. Reception
- c. Shelves
- d. Catalogue unit
- e. Reading

**70.** The earliest components of the communication process are

- a. Noise, messenger and receiver
- b. Messenger, sender and 'noise
- c. Sender, messenger and receiver**
- d. Sender receiver and decoder
- e. Receiver, decoder and encoder

**71.** Books kept in the reference sections of a library are those that?

- a. Can be borrowed out of the Library
- b. Should be used within the Library only**
- c. Are used by the Library staff only
- d. Are demanded to interested users
- e. Are outdated

**72.** Communication models are

- a. Symbolic and replica**
- b. Symbolic and dramatic
- c. Dramatic and systematic
- d. Systematic and symbolic

**73.** One of the teaching strategies that enable learners to develop at his

rate is

- a. Demonstration of instruction
- b. Lecturing method
- c. Individualized instruction**
- d. Group work
- e. Discussion method

**74.** An adjective helps to

- a. Define a noun
- b. Qualify a noun**
- c. Denote a noun
- d. Promote a noun
- e. Describes a noun

**75.** The printer is use'8 for producing a

- a. Soft copy
- b. Machine copy
- c. Hardcopy**
- d. Saved copy
- e. Photocopy

**76.** documents are saved into

- a. Flash drives**
- b. Printers
- c. Joystick
- d. Mice
- e. Keyboard

**77.** The major components of a computer are

- a. Flash drive, CPU, Monitor, Keyboard
- b. CPU, Monitor, Mouse and Printer
- c. CPU, Monitor, Mouse and Keyboard**
- d. Zip disk, printer, keyboard
- e. Monitor, mouse, diskette and CPU

**78.** E-mail addresses can be accessed with the use of

- a. Username and password
- b. User word and domain
- c. Password and keyboard
- d. Password and domain
- e. Keyboard and PIN

**79.** Papers are best presented in conference using

- a. Microsoft Word
- b. Desktop publishing
- c. Power point
- d. Microsoft excel
- e. Microsoft access

**80.** the full meaning of ICT is

- a. Integrated communication
- b. Interrupted community technology
- c. Interpersonal computer technology
- d. Informal and community technology
- e. Information and communication technology

**81.** Panel board has a

- a. Paper background
- b. Wood background
- c. Metal background'
- d. Water background
- e. Blanket background

**82.** Transparencies are used with

- a. Overhead projector
- b. Overhead lamp
- c. Overhead search light
- d. Overhead camera
- e. Overhead slide

**83.** Which of the following is an application package

- a. Linux
- b. Window XP Professional
- c. MS-Access
- d. Window 200
- e. COBOL

**84.** Improvisation of instructional medium deals with

- a. Design aids
- b. Visual
- c. Individuals
- d. Pupils
- e. Basic roads

**85.** One of the components of system approach of instruction is

- a. Research
- b. Stating objectives
- c. Theory
- d. Behavior attitude
- e. The developed curriculum

**86.** One of the limitations of a flip chart is that it is

- a. Brittle
- b. Large
- c. Energy sapping
- d. Expensive
- e. Not visible

**87.** The advantage of a still picture as a form of instructional media is that

it

- a. Can be manipulated
- b. Is easy to prepare
- c. Is easy to trace
- d. Requires artistic skills

e. Is produced by learners

**88.** Which of the following is a component of instructional system?

- a. Sequence
- b. Practice
- c. Plumbing
- d. Information
- e. Rating

**89.** Computer can only process data in binary digits which are

- a. 0 and 2
- b. 0 and 1
- c. 0 and 3
- d. 0 and 4
- e. 0 and 5

**90.** One of the word processing application is

- a. Corel draw
- b. Instant artist
- c. Database
- d. MS word
- e. Spread sheet

**91.** An example of a high level language is

- a. MS Excel
- b. Window XP
- c. Windows Vista
- d. ORACLE
- e. COBOL

**92.** One of the advantages of computer based instructions in the classroom is

- a. Cost reduction
- b. The dramatization of instruction

- c. Easy memorization
- d. Symbolic presentation
- e. Structural projection

**93.** How many local government areas are in Nigeria?

- a. 727
- b. 747
- c. 774**
- d. 776
- e. 777

**94.** Which of the following is not a responsibility of NAFDAC?

- a. Manufacturing drugs**
- b. Checking fake drug
- c. Inspecting drugs shops
- d. Monitoring the importation of food
- e. Destroying fake drugs

**95.** The first indigenous university in Nigeria is

- a. University of Ibadan
- b. University of Nigeria Nsukka**
- c. Obafemi Awolowo University, Ile-Ife
- d. Ahmadu Bello University, Zaria
- e. University of Lagos

**96.** What is the motto of UBE?

- a. Education for all is the responsibility of all**
- b. Education for one is the responsibility for all
- c. Education for all is the business of one:
- d. Education for one is the business of I one
- e. Education for all is the responsibility of many

**97.** Which of the following agencies of United Nations are responsible for the advancement of education

- a. UNESCO and UNICEF
- b. FAO and UNDP
- c. UNDP and UNICEF
- d. FAO and ILO
- e. WHO and FAO

**98.** The first curriculum conference in Nigeria was held in

- a. 1970
- b. 1972
- c. 1975
- d. 1977
- e. 1969

**99.** The first female University Vice-Chancellor in Nigeria is

- a. Prof. Bolanle Awe
- b. Prof. GamboRarabaAdbullahi
- c. Prof. Grace Alele Williams
- d. Prof. JadesolaAkande
- e. Prof. Mary Lar

**100.** Headquarters of UNESCO is located in

- a.London
- b.New York
- c.C. Paris
- d.Geneva
- e.Washinton D.C

## SECTION D

### Mathematics Past Questions

- 1.
- A) 11
- B) 12
- C)  $\sqrt{146}$

E)  $\sqrt{244}$

2. Consider the sequence 2, 6, 18, 54, 162,.... If the 48th term is a and the 51th is b, what is the value of  $\mathbf{b/a}$ ?

A)  $1/27$

B)  $1/3$

C) 9

D) 3

E) 27

3. What is the value of z, the number of seniors on teams as shown in the table below?

A) 360

B) 420

C) 200

D) 1800

E) It cannot be determined from the information given

4. In the figure above, what is the value of a?

A) 30

B) 36

C) 45

D) 72

E) It cannot be determined from the information given

5. At central high school 50 girls play intramural basketball and 40 girls play intramural volleyball. If 10 girls play both sports, what is the ratio of the number who plays only volleyball?

A) 3:4

B) 4:3

C) 5:4

- D) 4:5
- E) 2:3

6. Maria is 6 times as old as Tina. In 20 years, Maria will be only twice as old as Tina. How old is Maria now?

- A) 25
- B) 28
- C) 29
- D) 30
- E) 32

7. If a secretary types 60 words per minute, how many minute will he take to type 330 words?

- A)  $11/2$
- B)  $15/2$
- C)  $16/3$
- D)  $17/2$
- E)  $19/4$

8. If Scott can mow  $2/5$  of a lawn each hour, how many lawns can he mow in  $h$  hours?

- A)  $2h/5$
- B)  $5h/2$
- C)  $h-2/5$
- D)  $2/5h$
- E)  $5/2h$

9. If it is now June, what month will it be 100 months from now?

- A) January
- B) April
- C) June
- D) October

E) December

**10.** In a group of 100 students, more students are on a team than are members of a club. If 70 are in clubs and 20 are neither on a team nor in a club, what is the minimum number of student who could be both on a team and in a club?

A) 61

B) 62

C) 65

D) 70

E) 75

***Study the chart and answer the questions below it.***

**11.** In April to June the planned number of flights to Hong Kong is 30. What is this decrease as a percentage of the number of flights booked in January to March?

A) 25.5%

B) 33.3%

C) 45.3%

D) 50%

E) 66.6%

**12.** What was the number of UK flights booked as a percentage of the Malaysian flights if UK flights booked is 20% of the total Europe flights?

A) 15%

B) 1.5%

C) 50%

D) 5%

E) 35%

**13.** A 10 % discount is offered to flights to Hong Kong booked between January and March. What was the total cost of all flights to Hong Kong in the period January to March?

- A) \$3500
- B) \$17500
- C) \$27500
- D) \$35000
- E) Cannot Say

**14.** How many more flights were booked?

- A) 20
- B) 30
- C) 40
- D) 50
- E) 60

**15.** A student bought 3 notebooks and 1 pen for N35. After misplacing these items, she again bought 2 note books and 2 pens, all of the same type for N30. What is the cost of a pen?

- A) N5.00
- B) N7.50
- C) N10.00
- D) N15.00

**16.** If the simple interest on N2, 000 after 9 months is N6, at what rate per annum is the interest charged?

- A) 21.4%
- B) 4%
- C) 5%

D) 6%

**17.** A man bought a television set on hire purchase for N25, 000 out of which he paid N10,000. If he is allowed to pay the balance in eight equal installments, find the value of each Installment.

A) N1250

B) N1578

C) N1875

D) N3125

**18.** A car moves at an average speed of  $30\text{kmh}^{-1}$ , how long does it take to cover 200 metres?

A) 2.4Sec

B) 24Sec

C) 144Sec

D) 240Sec

**19.** A man bought 2220 mangoes at N5x. He sold each for 3x kobo and made gain of N8. Find the value of x.

A) 2

B) 5

C) 6

D) 10

**20.** The side of a square is increased from 20cm to 21cm. Calculate the percentage increase in its area.

A) 2.5%

B) 9.3%

C) 10.0%

D) 10.25%

**21.** A house bought for N100,000 was later auctioned for N80,000, Find the loss percent.

A) 20%

B) 30%

C) 40%

D) 50%

**22.** An article bought for D5,000.00 depreciate by 15% of its value during the first year. Find its value after a year.

A) D425.00

B) D750.00

C) D4,250.00

D) D4,985.00

**23.** A trader sold a pair of shoes for C 2,800.00 making a loss of 20% on his cost price. Find his loss as a percentage of his selling price.

A)  $162/3\%$

B) 2%

C) 25%

D) 75%

**24.** The price of a litre of petrol is increased from C30.00 to C 39.00 . What is the percentage increase in the cost of a litre of petrol ?

A) 90%

B) 30%

C) 34%

D) 39%

**25.** A rectangle is twice as long as it is wide. If the width is  $a$ , what is the length of a diagonal?

A)  $a\sqrt{2}$

B)  $a\sqrt{3}$

C)  $a\sqrt{5}$

D)  $3a$

E)  $5a$

**26.** Last year Jose sold a painting for \$2000. If he made 25% profit on the sale, how much had he paid for the painting?

A) \$1200

B) \$1500

C) \$1600

D) \$2400

E) \$2500

**27.** A lacrosse team raised some money. The members used 74% of the money to buy uniform, 18% for equipment, and the remaining \$216 for a team party. How much money did they raise?

A) \$2400

B) \$2450

C) \$2500

D) \$2600

E) \$2500

**28.** If the length of a rectangle is 4 times its width, and if its area is 144, what is its perimeter?

A) 6

B) 24

C) 30

- D) 60
- E) 96

**29.** If the measures of the angles of a triangle are in the ratio of 1:2:3, and if the perimeter of the triangle is  $30 + 10(3)^{1/2}$ , what is the length of the smallest side?

- A) 20
- B) 18
- C) 15
- D) 12
- E) 10

**30.** What is the area of Triangle ABC?

- A) 350
- B) 360
- C) 370
- D) 375
- E) 390

**31.** What is the perimeter of Triangle ABC?

- A) 80
- B) 85
- C) 95
- D) 100
- E) No idea

**32.** Last year Jose sold a painting for \$2000. If he made a 25% profit on the sale, how much had he paid for the painting?

- A. \$1200
- C. \$1500
- C. \$1600
- D. \$2400

E. \$2500

Jose made 25% profit, so if he bought the painting for  $x$ , he sold it for:  $x +$

$$0.25x = 1.25x = 2000 \Rightarrow x$$

$$= 2000 \div 1.25 = 1600.$$

**The answer is (C).**

**33.** In the figure below what is the value of  $b$ ?

A. 30

**B. 36**

C. 45

D. 60

E. 72

**34.** Since vertical angles have the same measure,  $c = d$ ,  $d = a$ , and  $b = a - b$

$$a = 2b.$$

Therefore,  $c = d = a = 2b$ . Also, the sum of the measures of all six angles is

3600, so  $a + b + c + d + a - b + d = 2a + c + 2d = 360$ . Replacing

$c$ ,  $d$ , and  $a$

by  $2b$  yields

$$10b = 360 \Rightarrow b = 36.$$

**The answer is (B).**

**35.** A lacrosse team raised some money. The members used 74% of the

money to buy a uniform, 18% for equipment, and the remaining \$216 for a

team party. How much money did they raise?

A. 2400

B. 2450

C. 2500

D. 2600

**E. 2700**

SINCE  $74\% + 18\% = 92\%$ , THE \$216 spent on the party presents the other

8 % of the money raised. Then:  $0.08m = 216 \Rightarrow m = 216 \div 0.08 = 2700$ .

**The answer is (E).**

**36.** In the figure below, what is the sum of the degree measures of all of the marked angles?

A. 600

B. 620

C. 700

**D. 720**

E. 750

Each of the 10 marked angles is an exterior angle of the Pentagon.

If you

take one angle at each vertex, the sum of the degree measures of those five

angles is 360; the sum of the degree measures of the other five also is 360:

$360 + 360 = 720$ .

**The answer is (720).**

**37.** If the measures of the angles of a triangle are in the ratio of 1:2:3, and if

the perimeter of the triangle is  $30 + 10(3)^{1/2}$ , what is the length of the

smallest side?

A. 20

B. 18

C. 15

D. 12

E. 10

**38.** What is the area of Triangle ABC?

A. 350

B. 360

C. 370

**D. 375**

E. 390

The area of Triangle CDE =  $0.5(8)(15) = 60$ . Since the ratio of similitude for

the two triangles (as

Calculated in solution C15) is 2.5, the area of Triangle ABC is  $(2.5)^2$  times

the area of CDE:  $(2.5)^2 \times 60 =$

$6.25 \times 60 = 375$ . **The answer is (375).**

**39.** What is the perimeter of Triangle ABC?

A. 80

B. 85

C. 95

**D. 100**

E. 105

Solution

By the Pythagorean theorem,  $8^2 + 15^2 = (CE)^2$   $(CE)^2 = 64 + 225$   
 $= 289$   $CE$

$= 17$ . Then the perimeter of

CDE =  $8 + 15 + 17 = 40$ . Triangles ABC and CDE are similar (each has a 90°

angle, and the vertical angle at C are congruent). The ratio of similitude is =

2.5, so the perimeter of ABC is  $2.5 \times 40 = 100$ . **The answer is (100).**

**40.** If the difference between the measures of the two smaller angles of a

right triangle is 20°, what is the measure, in degrees, of the smallest angle?

- A. 30
- B. 35
- C. 40
- D. 45
- E. 50

**41.** What is the area of Triangle BED in the figure below were ABCD is a triangle?

- A. 12
- B. 24**
- C. 36
- D. 48
- E. 60

You can calculate the area of the rectangle and subtract the area of the two white right triangles, but don't. The shaded area is a triangle whose base is 4 and whose height is 12. The area is  $(4)(12) = 24$ . **The answer is (B).**

**42.** In an office, there was a small cash box. One day Ann took half of the money plus \$1 more. Then Dan took half of the money plus \$1 more. Stan then took the remaining \$11. How many dollars were originally in the box?

- A. \$50**
- B. \$45
- C. \$42
- D. \$40
- E. \$38

**Solution**

You can avoid some messy algebra by working backward. Put back the \$11

Stan took; then put back the extra \$1 that Dan took. There is now \$12, which means that, when Dan took his half, he took \$12. Put that back, now there is \$24 in the box. Put back the extra \$1 that Ann took. The box now has \$25, so before Ann took her half, there was \$50. **The answer is (\$50).**

**43.** Each of the 10 players on the basketball team shot 100 free throws, and the average number of baskets made was 75. When the highest and lowest scores were eliminated the average number of baskets for the remaining 8 players was 79. What is the smallest number of baskets anyone could have made?

- A. 22
- B. 20
- C. 18**
- D. 16
- E. 14

Since the average of all 10 players was 75, the total number of baskets made was  $10 \times 75 = 750$ . Also, since 8 of the player had an average of 79, they made a total of  $8 \times 79 = 632$  points. The other 2 players therefore, made  $750 - 632 = 118$  baskets. The most baskets that the player with the highest number could have made, was 100, so the player with the lowest number had to have made at least 18. **The answer is (C)18.**

**44.** Karen played a game several times. She received \$5 every time she won and had to pay \$2 every time she lost. If the ratio of the number of times she won to the number of times she lost was 3:2, and if she won a total of \$66, how many times did she play the game?

A. 30

B. 35

C. 40

D. 45

E. 48

Karen won  $3x$  times and lost  $2x$  times, and thus played a total of  $5x$  games.

Since she got \$5 every time she won, she received  $\$5(3x) = \$15x$ .

Also, since

she paid \$2 for each loss, she paid out  $\$2(2x) = \$4x$ .

Therefore, her net winning were  $\$15x - 4x = \$11x$ , which you are told was

\$66. Then,  $11x = 66 \Rightarrow x = 6$ , and so  $5x = 30$ . **The answer is 30**

**45.** Since 1950, when Martin graduated from high school, he has gained 2

pounds every year. In 1980 he was 40% heavier than in 1950.

What percent

of his 1995 weight was his 1980 weight?

A. 80

B. 85

C. 87.5

D. 90

E. 95

**Solution**

Let  $x$  = Martin's weight in 1950. By 1980, he had gained 60 pounds (2

pounds per year for 30 years) and was 40% heavier:  $60 = 0.40x$

$$= 60 \div$$

0.4 = 150. In 1980, he weighed 210 pounds, 15 years later, in 1995, he

weighed 240:  $210/240 = 7/8 = 87.5\%$ . **The answer is C.**

**46.** Henry drove 100 miles to visit a friend. If he had driven 8 miles per hour faster than he did, he would have arrived in of the time he actually takes. How many minutes did the trip take?

- A. 100
- B. 120
- C. 125
- D. 144
- E. 150

**47.** Two printing presses working together can complete a job in 2.5 hours.

Working alone, press A can do the job in 10 hours. How many hours will press B take to do the job by itself?

- A. 10/3
- B. 4
- C. 5
- C. 25/4
- E. 15/12

Multiply each term by 10x:  $2.5x + 25 = 10x$
